EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jason M. Okun on 24 August 2004.

The application has been amended as follows:

the phrase "small-thickness portion" on lines 1-2 of claim 32 has been replaced with --groove or cavity--,

the phrase "small-thickness portion" on lines 1-2 of claim 33 has been replaced with --groove or cavity--, and

the phrase "small-thickness portion" on lines 1-2 of claim 34 has been replaced with --groove or cavity--.

2. The following is an examiner's statement of reasons for allowance.

The claimed invention is directed to a multilayered molded product comprising a core layer and a skin layer. The product comprises a board-shaped part which has a projection portion adapted for mounting another part. The projection portion is formed integrally with the skin layer and is formed only from the same material as the skin layer.

Art Unit: 1773

Upon reconsideration and in view of the applicants' arguments, the examiner agrees that neither Manabe et al. nor Kawashima et al. teach or fairly suggest a multilayered resin molded product comprising a core layer and a skin layer having a projection portion as claimed.

The changes to claims 32-34 were made to obviate possible rejections under 35 U.S.C. 112, 2nd paragraph, and are supported by the original disclosure at least by Figures 11-14.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
